Document No. 1

~~SECRET~~
April 3, 1959

MEMORANDUM FOR RECORD:

I reported to the President that State and Defense had agreed to "suspend indefinitely" the high altitude flights into Berlin, following the completion of the first flight and the several protests lodged thereon. The suspension is to allow for review and reconsideration of the matter. The President interposed no objection but said that in principle he would like for the flights to be continued from time to time. He pointed out that the Soviets have retreated somewhat from their initial adamant position on the matter.

I called Secretary Herter and Mr. Irwin and advised them.
